Gold Buckle Champions... *to further the education of equine health and safety while preserving our western heritage and history by means of promoting equine events incorporating the youth and community.*

By our actions, we wish to demonstrate the legendary proceedings of the men and women, unafraid of hard work, who founded the west, and the lifestyle that gave them the courage it took to endure its hardships and lead them to a better life.

Gabrielle Sanborn was just 20 years old when she left this earth for another journey, but not before she had graced this planet with her layers of talent. She had accomplished in her lifetime gifts that will linger with those who knew and loved her without end. She was an amazing artist, with both life and music, playing 5 instruments. She was someone who instantly made you feel comfortable just being with her and most importantly just being yourself. These are all qualities instilled within that come from living on the land and being involved with horses.
